DIARY NOTES

DD/S

13 July 1971

\* \* \* \* \*

Les Bush: On this date I talked briefly with Mr. Bush about his retirement planning and plans by reminding him that it was our understanding that he would be leaving the end of this calendar year. He told me that his own planning had changed somewhat due to developments in Florida and he now planned to leave on 30 November. He reminded that he had said nothing to his own people about this and would of course prefer to take that action before we broke the news. He recognizes that he must now initiate formalities with the Office of Personnel and has in mind to do so very early on.

As far as replacement is concerned he indicated that under ordinary circumstances he would suggest that [REDACTED] come to O/F as Deputy with the prospect of moving up. He acknowledged that [REDACTED] is fully qualified to take over as Director of Finance should that be desired.
